Dear Rick:

Our many thanks to you for an outstanding performance at our New Years Eve party this past year. As I told you when we first talked, our numbers for this event had been sadly waning over the past four years. We tripled our regular attendance this year and we are attributing that increase, in large part, to the entertainment scheduled.

Your show was a huge success for our event. I've never heard so many comments as, "It's been a long time since I laughed so hard." Weeks later the compliments are STILL coming in. We've also been hearing that this year will be a tough act to follow.

The subjects you ended up with at our show played against each other perfectly and you used that to your advantage as they were complete opposites. You engaged the audience too and that kept everyone glued to their seats waiting for each new "suggestion" to your subjects. All in all, we had the best New Years Eve party our club has ever seen - thanks to you.

We would most highly recommend your show to anyone interested in engaging a hypnotist and would gladly give any references you may require in the future. Thanks again for giving our members a night to remember and a great start to the New Year.

Sincerely

Vickie Heck
